EDUCATION

Bachelor of Engineering (B.Eng.), Mechanical Engineering | University of Nigeria, Nsukka | Enugu, Nigeria | 2019–2024

- First Class Honours; CGPA: 4.94/5.00; Overall Best Graduating Student.
- **Relevant quantitative and computing coursework:** Statistics for Physical Science and Engineering (A); Engineering Computer Programming (A); Engineering Computer Programming Laboratory (A); Computational Methods (A); Engineering Analysis (A); Automatic Control (A); Instrumentation and Control Engineering (A); Energy Conversion Principles (A).

TECHNICAL SKILLS

Data Science & Programming: Python, SQL, PyTorch, scikit-learn, Pandas, NumPy, Matplotlib, Power BI, Microsoft Excel

Modelling & Intelligent Systems: MATLAB, Simulink, Simscape, Arduino, embedded systems, automatic control, engineering modelling

Analytics & Automation: n8n, AI workflow automation, data cleaning, dashboarding, statistical analysis, technical reporting

RELEVANT EXPERIENCE

Data Analyst, EMV Department | SecureID Limited | Lagos, Nigeria | Mar 2026–Present

- Analyze operational, production, and card/chip datasets using Excel and SQL to identify pending work, track performance, and support decisions.
- Develop monitoring outputs, Gantt plans, and structured reports that improve visibility across production and deployment workflows.
- Organize and validate data used in technical requirements, deployment, and process documentation.
- Build n8n automation workflows that improve information flow across customer, sales, and technical teams.

SDG Advocate & Data Analyst, Lagos Team | UN Sustainable Development Solutions Network Youth Nigeria | Lagos, Nigeria | 2025–Present

- Analyze participation and feedback data from advocacy and community activities to support monitoring and evaluation.
- Supported sustainability education for about 150 students at New Estate Baptist Schools on clean energy, waste reduction, and climate action.
- Contributed to community environmental and health-sensitization activities, including the responsible use of collected programme data.

Data Analyst, Planning, Research & Statistics Team | National Youth Service Corps Orientation Camp | Ekiti, Nigeria | 2026

- Analyzed survey responses from 168 corps members on camp welfare and prepared dashboards for programme decision-making.
- Worked with camp leadership to translate findings into practical recommendations for improving participant experience.

SELECTED DATA SCIENCE & ENGINEERING PROJECTS

Battery Thermal Behaviour and Machine Learning Pipeline | Independent Project | Nigeria | 2026–Present

- Developing an end-to-end workflow that combines battery thermal modelling in MATLAB/Simulink with machine-learning experiments in Python and PyTorch.
- Investigating data-driven prediction of battery thermal response and how intelligent models can operate within energy and physical-system constraints.

Solar Water Purification System | University of Nigeria, Nsukka | Enugu, Nigeria | 2024

- Led a four-person final-year engineering team through design, materials sourcing, fabrication, testing, and technical evaluation.
- Managed project finances and iterative design decisions under material and fabrication constraints.

Multipurpose Solar Generator | African Centre of Excellence for Sustainable Power and Energy Development | Enugu, Nigeria | 2024

- Led fabrication, testing, and refinement of a multipurpose solar generator; project received a ₦1 million World Bank-sponsored grant.

Proximity Sensor & Distance Measurement System | University of Nigeria, Nsukka | Enugu, Nigeria | 2023

- Programmed, tested, and troubleshoot an Arduino-based proximity and distance measurement system, integrating sensor data with embedded-system logic.

LEADERSHIP & COMMUNITY ENGAGEMENT

Director of Communications | Inter-African Scholar Accelerator (ISA) | Nigeria | 2024–2026

- Coordinated scholar communications, moderated seminars, and supported engagement across a growing pan-African scholar community.
- Co-organized the second ISA SDG Challenge, expanding participation beyond existing members and coordinating participants, executives, and judges through multiple stages.

Treasurer | Nigerian Institution of Mechanical Engineers, UNN Student Chapter | Enugu, Nigeria | 2024–2025

- Maintained financial records and used Excel to support transparent reporting and stewardship of chapter funds.

Volunteer | Society of Petroleum Engineers UNN Chapter | Enugu, Nigeria | 2023–2025

- Participated in the Sit-a-Child project at Divine Wisdom Academy, supporting educational material donations and engagement with about 100 pupils.

Tutor | Academic Carryover Eradication Network | Enugu, Nigeria | 2023–2025

- Delivered tutorials in core engineering courses and mentored students on study strategies and difficult course concepts.

AWARDS & DEVELOPMENT

- Michael Taiwo Scholarship, 2026
- Overall Best Graduating Student, University of Nigeria, Nsukka, 2025
- Aspire Leaders Program, Aspire Institute, 2025
- Winner, African Centre of Excellence for Sustainable Power and Energy Development competition; ₦1 million grant, 2024
- Winner, Inter-African Scholar Accelerator SDG Challenge, Team EcoEnergetics, 2023
- MTN Foundation Scholarship, 2023 | Federal Government of Nigeria Scholarship, 2022 | Agbami/Chevron JV Scholarship, 2022

ADDITIONAL TRAINING & MEMBERSHIPS

Training: Excel Essentials for Data Analysis; AI Automation Professional Certification; MATLAB/Simulink Onramp; Simscape Onramp; Stateflow Onramp; Your Future in Green Jobs.

Memberships: Nigerian Society of Engineers; Inter-African Scholar Accelerator; International Association of Engineers; BlackinAI.

Languages: English (fluent); Igbo.
